STATISTICAL REPORT DEFINITIONS

The following definitions of terms in this report may be helpful in determining the results of your survey.  
-----

VARnnn: The Variable Number followed by the Question Number and Text  
(The wording of the question is often paraphrased and/or abbreviated in the report because of program restrictions. See original survey for complete wording of questions.)

VALUE LABEL: The Answer-Choices on the Survey  
(The wording of the answer-choices is often paraphrased and/or abbreviated in the report because of program restrictions. See original survey for complete wording of answer-choices.)

VALUE: How the answer was keyed during data-entry  
("-99" indicates that the respondent did not answer the question.)

FREQUENCY: The number (quantity) of respondents who gave that answer

PERCENT: The percentage of the total number of surveys that the number of respondents represents (Quantity of respondents who answered that way divided by total quantity of surveys)

VALID PERCENT: The percentage of those who answered the question that the number of respondents represents (Quantity of respondents who answered that way divided by quantity of respondents who answered that question)

CUMULATIVE PERCENT: Self-explanatory

VALID CASES: The number of respondents who answered that question

MISSING CASES: The number of respondents who did not answer that question

MEAN: The average VALUE, given all who answered that question  
-----

If you have any questions please call Len Phillips or Al Liberman at 617-492-0600. We'll be happy to help you any way we can.
